

# HELLO NEIGHBORS!!

Anyone want to garden with us?

We are a small group of community members who have started a non-profit organization called **Friendship Community Gardens** with the goal of building gardening space in our neighborhood. We have purchased several lots at the corner of Turnpike Road and Bryan Street for this purpose. Our vision has two parts. First, we will have large areas of shared gardening space for the Friendship House Fayetteville residents (<http://friendshiphousefayetteville.org>), who live at the corner of Arsenal Avenue and Highland Avenue. They will garden, with the help of volunteers, to supply fresh vegetables at their weekly community meals and Farmer's Market. Second, we will have individual garden plots available for families and friends in the Savoy Heights neighborhood to rent so that they can have their own individual garden space. Gardening can help insure access to healthy food options and also provide opportunities to teach children how our food grows, as well as how to make healthier food choices.

A yearly fee of \$25 will cover the cost of a 5 feet by 10 feet raised garden bed complete with fertilized soil and water for irrigation. We also hope to be able to offer a selection of seeds and seedlings for our neighbors to use in their gardens.

Our garden dreams will start slowly, but one day we hope that our dreams will grow into a special place in Savoy Heights where neighbors become friends as they work alongside each other in the soil. Won't you join us?

Grace and peace,  
Your Neighbors
